STORIES & SUBTASKS

1. ABSTRACT

The CRM Application for **THE CHAI SHOP & CO** is a web-based system used to manage customers, products, orders, sales, and feedback. It reduces manual work, saves time, and keeps shop information organized.

2. INTRODUCTION

The application helps the shop manage customer details and daily activities in one place. Staff can search customer information, manage orders, and view sales records easily.

3. PROBLEM STATEMENT

- Manual maintenance of customer details
- Difficult to search records
- Order and sales details may be disorganized
- Feedback is difficult to track
- Manual work can cause errors

4. OBJECTIVES

- Store customer details digitally
- Manage products and orders
- Maintain sales records
- Store customer feedback
- Reduce paperwork and errors
- Improve customer service

5. MODULES

- **Admin Module:** Manage customers, products, employees, orders, sales, and reports.
- **Customer Module:** Customer registration, profile management, order history, and feedback.
- **Product/Menu Module:** Add, update, delete, view, and search products.
- **Order Module:** Create orders, update order status, cancel orders, and view order history.
- **Feedback Module:** Manage ratings, reviews, and suggestions.
- **Sales and Reports Module:** View sales details and generate reports.

6. SYSTEM REQUIREMENTS

CATEGORY	REQUIREMENTS
Hardware	Intel Core i3 or above, 4 GB RAM or above, 100 GB hard disk or above, Keyboard, mouse, and monitor
Software	Windows 10/11, HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, XAMPP, Google Chrome or Microsoft Edge

7. DATABASE DESIGN

Main tables used in the system:

- Customer Table
- Product Table
- Order Table
- Order Details Table
- Feedback Table
- User Table

8. SYSTEM FLOW

Start → Login/Registration → Authentication → Dashboard → Manage Customers/Products/Orders → Store Data in Database → Generate Reports → Logout → **End**

9. SECURITY

- Username and password login
- Role-based access
- Input validation
- Session management
- Logout facility

10. FUTURE ENHANCEMENTS

- Online payment
- QR code ordering
- WhatsApp/SMS notifications
- Loyalty points
- Mobile application
- Online delivery management

11. CONCLUSION

The CRM Application for THE CHAI SHOP & CO makes customer and shop management easier. It reduces manual work, saves time, maintains accurate records, and improves customer service. More features can be added in the future.
